Portfolio: https://javed485.github.io/My-Portfolio/

SUMMARY

A highly motivated computer science professional with a strong interest in software development. I have chosen web application development as my career path and hold an MCA degree. I am familiar with multiple front-end technologies and have hands-on experience with HTML, CSS, Bootstrap, and JavaScript.

As UI Developer with 2+ years of hands-on experience in creating responsive and user-friendly UI solutions. He always transforms hard work into smart work. He looks for career growth with innovative ideas, optimum approach and tackle challenges with zeal and dedications.

WORK EXPERIENCE

Role: UI Developer   **Location:** Sec. 15, Noida
Company: Bulkvyapar Network Pvt. Ltd.   **Work Duration:** Dec 2022 – Feb 2025
Description: As a UI Developer at Bulkvyapar Network Pvt. Ltd., I designed and developed responsive and user- friendly web interfaces. I created landing and multi-page websites and contributed to redesigning the Bulkvyapar website to improve its user experience and visual appeal. All project links and live demos are available in my portfolio.

- Built responsive, cross-browser compatible UIs and optimized landing and multi-page websites using HTML5, CSS3, JavaScript, and Bootstrap.
- Redesigned the Bulkvyapar website, enhancing user experience and modernizing visual layout.
- Create Find Distributer and Cultured Wedding Website with HTML, CSS, Bootstrap and JavaScript.
- Converted Figma mockups into production-ready UI by collaborating closely with design teams.

Role: Web Developer Intern   **Location:** Ghaziabad, UP
Company: Strategy Soda   **Work Duration:** Feb 2022 – Aug 2022
Description: Strategy Soda is a digital marketing agency creating immersive digital experiences. The role involved designing and developing user-friendly landing pages using modern UI technologies, collaborating with teams, handling client requirements and delivering high-quality web solutions. All websites links are available in my portfolio.

- Designed and developed responsive user interfaces for web and mobile platforms.
- Created and maintained single-page and multi-page websites using HTML, CSS, JavaScript.
- Worked closely with creative and product teams to meet client requirements.
- Redesigned and optimized website layouts to improve user experience and performance.

CAREER DEVELOPMENT (Mar 2025 – Present)

After completing my role at Bulkvyapar Network Pvt. Ltd., I took some time to learn new skills and enhance my knowledge in React.js and modern front-end technologies.

- Completed an advanced React.js course and developed several portfolio projects.
- Improved my understanding of Props, state management, hooks and react router.
- Published a personal portfolio website showcasing live projects, including a Dynamic Landing Page with AOS / Framer Motion and other modern JavaScript libraries.

- Developed a React weather app using the OpenWeather API, implementing fetch-based data retrieval, search, error handling, and caching, with a clean UI for temperature, humidity, and wind details.
- Built a CRUD application with Create, Read, Update, and Delete operations using a JSON-based API for smooth data management.
- Built an interactive World Map search website using the REST Countries API, enabling users to explore countries, population, and region details.
